

Ms. Tanya Moran
Director
PJA Perth

Profile

Tanya has over 20 years' experience across the transport sector working on urban regeneration, built form, greenfields and major infrastructure projects for the public and private sector.

She has a proven track record of delivering complex projects, drawing on her in-depth appreciation of the transport system and expectations of its users to service land use planning and create places that people feel comfortable to interact in and safe to call 'Home'.

She is a Fellow of Engineers Australia and has been an active committee member for over a decade for Transport Australia, Student Engagement and the National Women Working Group of Engineers Australia.
